

Creates a buffer area around the target line, area or marker. This can be either as a positive or a negative zone. By simply putting 10 for positive or -10 for negative.

1. Click on **Drawing Tools**.
2. Click on **Exclusion Buffer**.
3. Enter in a number eg: **10** for external buffer or **-10** for an internal buffer.
4. Click on the **Line / Marker** or **Area** you want to add the buffer to.
