

THE TRACMAP SYSTEM

TRACMAP

We would like to expand how we use our TracMap system to make it easier for you, and reduce the potential for mistakes and hold-ups. This means you having access to your own TracMap Online (TMOL) account.

Once set up you will be able to use a PC / laptop / iPad / tablet to set up your farm map(s), place orders accurately, and get proof of placement reports for all the jobs we do for you.

BY USING THE TRACMAP SYSTEM:

- You will save time
- Be able to create job orders, anytime, day or night
- Avoid any paddock confusion
- Easily keep track of what has been done and when
- Easily produce reports proving compliance requirements have been met
- Have maps stored safely for future reference

GETTING STARTED:

In order to gain access to this 'easy to use' system:

1. Simply contact us
2. Provide us with your email address
3. Then we'll provide you with access to your own TracMap Online account

HOW DOES THE TRACMAP SYSTEM WORK?

With a few easy steps you can place a job order, send to us, and then when we have finished, you get a map for future reference.

- STEP 1:** Log in to your TracMap Online account
- STEP 2:** Using your farm map, select paddocks and specify the tasks to create a job order
- STEP 3:** We then send it to a TracMap Display Unit (work vehicle) and the driver does the job
- STEP 4:** Once the job is completed, the information goes back to your TracMap Online account where a job report can be generated and the data stored permanently for you to refer to later.

STEP 1.

Log in to your TracMap Online account
(YOU)

STEP 2.

Create a job order
(YOU)

STEP 4.

Reporting and data storage
(US)

STEP 3.

Allocate job and driver does the job
(US)

IMPORTANT NOTE: If you already have an existing TracMap Online account(s) then you will need to make sure when you place an order that you use the correct account.

i.e Your farm name / Our business name account should show at the top right of your screen
